

Back-to-Work Evaluation

From Entry to Exit, We’ve got you covered.

Image Options, experts in experiential design, space planning, engineering and installation will team up with your facilities group to review your workspace, and make suggestions based on CDC, OSHA and WHO recommendations.

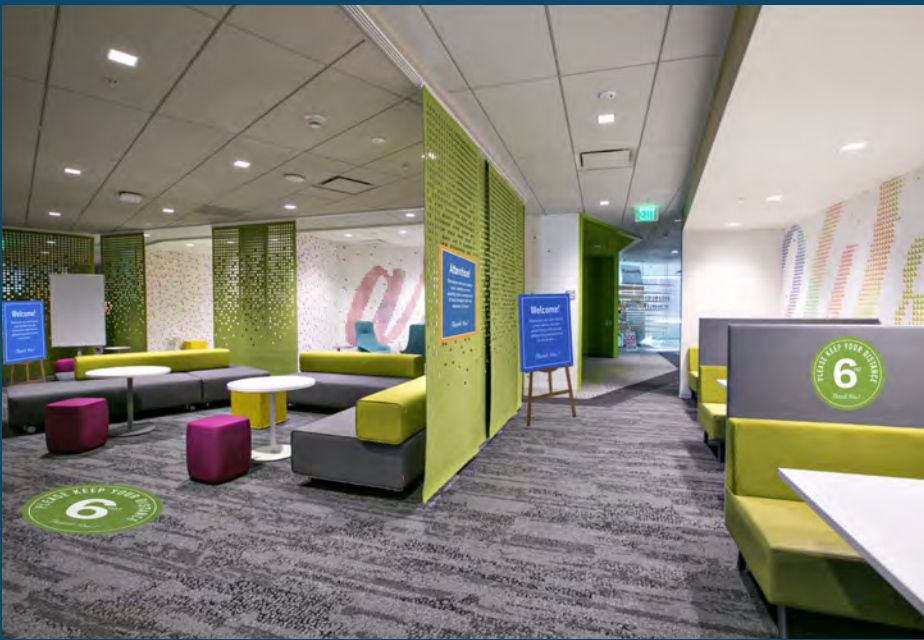

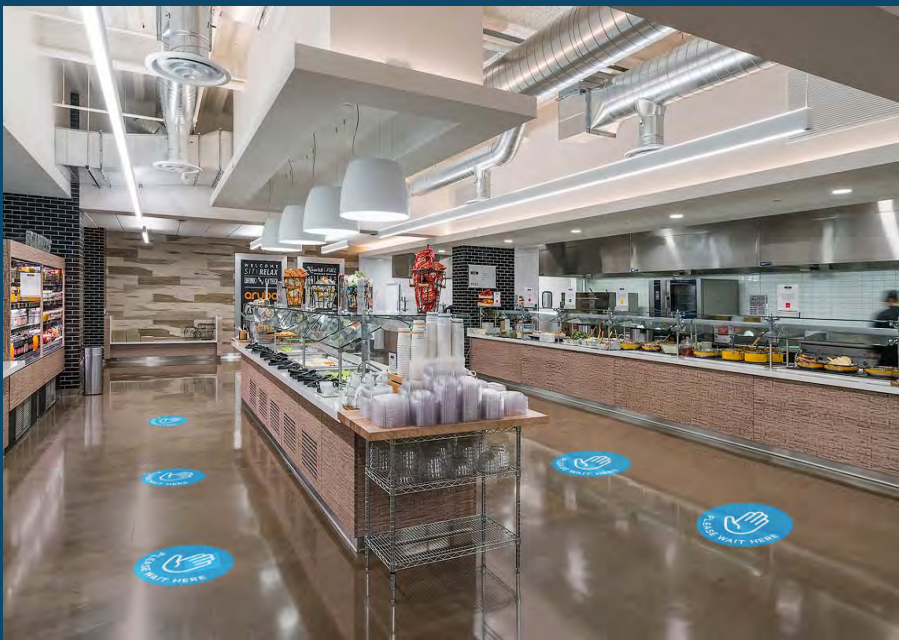

Image Options is ready to deploy every expert service and output at our disposal, including workplace strategy, benchmarking, guidelines and standards, personnel flow diagrams, occupancy plans, protocol signage & turnkey graphics solutions.

4 EASY STEPS

[Contact Us](#)

1 Discovery Interview

- Culture/work environment
- Current floorplan, sq. ft. and occupancy review
- Office, breakrooms, kitchen configuration review

2 On-Site Survey

- Existing floorplans
- Onsite measurements, photographs
- Import to collaborative online tool

3 Recommendations

- Detailed new employee visitor journey
- Current vs. desired state comparisons
- Signage for wayfinding & social distancing
- Separators/shields for open workspaces and common areas

4 Implementation

- New and existing furniture reposition
- Fabricate & install shields for all shared/open workspaces
- Design, print & install signage throughout employee/visitor journey
- Update & maintain deployment through phased back-to-work strategy
