Image Options Polling Registration Shield is designed to help foster a safer and more comfortable environment as voters enter local polling stations. These shields provide barrier protection for volunteers and voters as they arrive, register, and exit. Lightweight, the shields can be easily moved from one location to another. Easily adjustable to varying sized tables, they are optically clear and easy to clean.

Pricing is customized based on quantity.

Image Options also provides various PPE products as well as social distancing demarcation to ensure proper six-foot distancing and traffic flow.
